THREE NEW CHRYSANTHEMUMS FOR '49

TALISMAN — Ohio Hybrid

So named because its color blend is like that of the Talisman rose, fusing tints of cerise, rose and yellow into a harmonious flower. The blooms open about Oct. 1st, are fully double, the center yellow, the outer petals rose and cerise. Being an arctic daisy hybrid it is very hardy.

\$1.00 Each 3 for \$2.50

OLD DOMINION

Several years ago a very charming old lady brought us a start of a Mum from her mother's garden in Virginia. This flower is deep red, very large, 6 to 7 inches across, and varies from 2 to 3 rows of petals. It has proved very hardy here, and while late flowering it is frost resistant.

75c Each 3 for \$2.00

RAGGEDY ANN — Ohio Hybrid

In 1947 and again last fall many mum lovers saw this flower in our test garden and spontaneously named it Raggedy Ann. The flowers are very informal, first opening double, with a clear pink color. As the buds open, tan appears at the base of each petal and finally the yellow center is exposed. It is a robust plant, in bloom by Sept. 20th.

All Labeled.

English Chrysanthemums have proved extremely hardy, unbelievably beautiful in colors and blends and, above all, have given the home gardener what he has wanted for years, a truly large flower, comparable to those grown in the greenhouse, that he can grow out of doors with ease in his garden. It must be remembered though that not all English Mums are 6 or 7 inches across and that to produce large flowers most kinds must be disbudded.
